

A Social Story: Getting Lost

Sometimes I can get lost.

If I walk away from my parents or get separated in a crowd it feels scary.

**I am safest with my parents or other adults
who look after me.**

If I get separate from my parents in a busy place, I feel scared and worried.

If I wander away from my parents,
I could end up somewhere dangerous.

If I get lost, I could end up meeting a stranger.

Strangers could want to harm me.

Even if a stranger looks kind, if I do not know them, they might be dangerous.

If I get lost, I must speak to someone in a uniform. A Police Officer or a shopkeeper.

**The safest thing is for me to stay with my
parents.**

**I hold their hands when we are someone
strange.**

Getting Lost

Sometimes I get lost.

I wander away from my family and can't find them.

Getting lost is dangerous as I might not know where I am.

Strangers might want to harm me.

If I am lost I should speak to a Police Officer or someone in a uniform.

I always stay safely with my family.
