

# A Social Story: Sharing

**Sharing is important.**

**I share toys and food with my friends.**

I let my brothers and sisters play with my toys.

I play with my toys **WITH** my brothers and sisters.

I share my food with my friends,  
but only when an adult says this is ok.

**Sharing is a lovely thing to do.**

**It makes me feel good.**

**If I'm playing with something or watching a video, I can share my device with someone else.**

**Sometimes, people might not want me to share with them.**

**This is ok, they might want to next time.**

# Sharing

Sharing is a kind thing to do.

I let my friends and family share my food.

I let my friends play with my toys.

I share my toys with my brothers and sisters.

If people don't want to share, that is ok.

Maybe they will want to share next time!
